

GFI REPLACEMENT

6-18-12

If you are replacing a GFI... If your old one burnt up make sure when you hook up and give power to the GFI. That the GFI does not buzz if it does turn off power immediately. Call GEM for Help. 239-642-0873

Make sure that the nothing attaches to the main feed except the 3 GEM main feed wires (Red, Black and White) they must go trough the doughnut then you may split off main feed wires.
